20 for acute inpatient medical condition episodes

Scoring

- 15% of the ECs Final Score
- Each individual MIPS eligible clinician's and group's cost performance will be calculated using administrative claims data if they meet the case minimum of attributed patients.
- Performance is compared against performance of other MIPS eligible clinicians and groups during the performance period so benchmark is not based on a previous year.
- Performance category score is the average of all measures.
- If only one measure can be scored, it will serve as the performance category score.

Submission Type

- CMS will collect data through administrated claims
- Individual ECs and groups are not required to submit any additional information
