STI Computer Services, Inc Cost and Limitations Report for ChartMaker® Medical Suite version ChartMaker® 2018.

Capability and Certification Criterion	Description of Capability	Types of Costs or Fees to be paid by provider	Additional Types of Costs or Fees	Limitations (Contractual or Business)	Limitations (Technical or Practical)
Drug to Drug, Drug to Allergy Interaction Checks 170.315(a)(4)	This functionality provides users with alerts for patients when there is a contraindication between drugs, patient allergies or diagnoses at time of prescribing a medication	For our Client Server clients there is a nominal monthly fee for ChartMaker® HealthPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed to receive updated data from FDB	None	Clients do not need to have a contract with FDB to obtain this data.	None
Medication Allergy List 170.315(a)(8)	This functionality allows users to enter medication allergies based on drug name, ingredients or groups	For our Client Server clients there is a nominal monthly fee for ChartMaker@ HealthPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed to receive updated data from FDB	None	Clients do not need to have a contract with FDB to obtain this data.	None
Drug Formulary Checking 170.315(a)(10)	This functionality provides formulary checking at time of prescribing medications and reports back information to help the provider make point of care decisions based on the patient's prescription plan's formulary.	For our Client Server clients there is a nominal monthly fee for ChartMaker@ HealthPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed to receive updated formulary data from Surescripts	None	Clients do not need to a contract with Surescripts	None

Capability and Certification Criterion	Description of Capability	Types of Costs or Fees to be paid by provider	Additional Types of Costs or Fees	Limitations (Contractual or Business)	Limitations (Technical or Practical)
Direct Messaging 170.315(h)(1) Transition of Care Receive 170.315(b)(1)	This functionality allows providers to Receive, Create and Send Transition of Care documents. Direct Messaging is used to Receive and Send.	For our Client Server clients there is a nominal monthly fee for ChartMaker@HealthPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed for Direct Messaging. Surescripts is the HISP we use for Direct Messaging	None	Clients do not need to a contract with Surescripts. Surescripts is the only HISP that we utilize for Direct Messaging	There may be some Direct Addresses that are not accessible to our clients due to a limitation of Surescripts to only allow access to Direct addresses that are part of their HISP or to those in which they have partnered with.
Electronic Prescribing of Non-Controlled Substances and Controlled Substances 170.315.(b)(3)	This functionality allows prescribers to send prescriptions electronically. This includes both NonControlled and Controlled Substances	For our Client Server clients there is a nominal monthly fee for ChartMaker@HealthPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed to communicate with Surescripts, the prescription clearing house.	There is an additional low impact cost every two years to IdenTrust if a provider is sending Controlled Substances electronically. They need to be identity proofed and provided a token which is done via IdenTrust	Clients do not need to a contract with Surescripts. Providers prescribing controlled substances electronically do need to sign up and register with IdenTrust.	Tokens from IdenTrust are the only ones accepted.
Patient Access to Health Data, ability to view, download and transmit via Direct Messaging 170.315.(e)(1), Secure Messaging with patient's provider 170.315(e)(2) and	This functionality allows patients to view their data on a secure patient portal specific to a practice, download and or transmit data via Direct Messaging to other providers not part of this specific practice as well as send secure messaging to providers and other designated staff of this practice.	For our Client Server clients there are nominal monthly fees for ChartMaker@HealthPortal and ChartMaker@PatientPortal. For our Cloud/RCM clients there is no additional cost. HealthPortal access is needed for Direct Messaging and to facilitate communication between the Practice and PatientPortal. ChartMaker Surescripts is the HISP we use for Direct Messaging	None	Clients do not need to a contract with Surescripts. Surescripts is the only HISP that we utilize for Direct Messaging	There may be some Direct Addresses that are not accessible to patients due to a limitation of Surescripts to only allow access to Direct addresses that are part of their HISP or to those in which they have partnered with.

Capability and Certification Criterion	Description of Capability	Types of Costs or Fees to be paid by provider	Additional Types of Costs or Fees	Limitations (Contractual or Business)	Limitations (Technical or Practical)
Registry Submissions Immunization 170.315.(f)(1) and Specialized Registry 170.215(f)(3)	The immunization registry functionality allows for bidirectional data flow (when supported by the registry) We also support specialized registry submission via CECity	For our Client Server clients there is a nominal monthly fee for ChartMaker@HealthPortal. For our Cloud/RCM clients there is no additional cost.	There is a low impact yearly fee to submit data to CECity	We participate with as many immunization registries as required by our clients. Currently we only submit to CECity for specialized registry.	None
